A complete set of the slides prepared for this presentation (including many not actually used in the session) may be found at:

[www.ccsu.edu/planning/scup36/Tom\\_n\\_Jerry.htm](http://www.ccsu.edu/planning/scup36/Tom_n_Jerry.htm)

It is best viewed with Internet Explorer 5.0 or later, though it can be viewed with other browsers. An additional advantage of IE 5.0 is that the slides may be "edited" with MS PowerPoint, then "saved as" the original PowerPoint file on your computer.

A copy of the slide show (disk, paper or "ZIPped" email attachment) can be obtained by contacting either of the presenters. We also welcome your comments, questions and ideas. Thank you for attending our session at SCUP-36!
